- (i) When there is a difference between the rates in figures and words, the rate which corresponds to the amount worked out by the contractor (by multiplying the quantity and rate) shall be taken as correct.
- (ii) When the rate quoted by the contractor in figures and words tallies but the amount is incorrect, the rate quoted by the contractor shall be taken as correct and not the amount and the amount corrected.
- (iii) When it is not possible to ascertain the correct rate, in the manner prescribed above, the rate as quoted in words shall be adopted and the amount worked out, for comparison purposes.
- (iv) In case it is observed that any bidder has not quoted for any item in the Schedule of Rates (such unquoted item not being in large numbers and does not fall under REJECTION CRITERIA of tender), the quoted price for the purpose of evaluation shall be considered as the maximum rate quoted by the remaining bidder for such items. If after evaluation, such bidder is found to be the lowest evaluated bidder, the rates for the missing item shall be considered as included in quoted bid price. If the estimated price impact of the unquoted items is more than 10% of the bidder's quoted price, the above provision shall not be applicable and such bid shall be rejected.
- (v) When the actual net sum of the individual unit rates i.e. "Unit rate + Excise duty + CST/VAT + Inland freight rate – Minimum amount of Cenvat credit" do not match with the corresponding total unit rate (Column 10 of Price Schedule, Section V, Part B of tender), then the bid shall be evaluated based on the actual net sum of unit rates (i.e. column nos. (4+6+7+8)-Column 9)] OR the Total unit rate quoted under column 10 of Section IIID (Part-B) of tender, whichever is lower. If after evaluation, such bidder is L-1, then order shall also be awarded based on the above evaluation methodology. In case the "Total unit rate" quoted is less than the sum of the individual unit rates, then the quoted "Unit rate" rate shall be adjusted to arrive at the quoted "Total unit rate".
- (vi) In case it is observed that any bidder has not quoted for any item in the Schedule of Rates (such unquoted item not being in large numbers and does not fall under REJECTION CRITERIA of tender), the quoted price for the purpose of evaluation shall be considered as the maximum rate quoted by the remaining bidder for such items. IF after evaluation, such bidder is found to be the lowest evaluated bidder, the rates for the missing item shall be considered as included in quoted bid price. If the estimated price impact of the unquoted items is more than 10% of the bidder's quoted price, the above provision shall not be applicable and such bid shall be rejected.
- (vii) IF any unconditional rebate has been offered in the quoted rates, the same shall be considered in arriving at the net tendered amount. No cognizance shall be taken for any conditional discount for the purpose of evaluation of the bids.
- (viii) After the total quoted amount for each tender has been worked out, the financial implications in respect of the retained technical and commercial deviation will be added for evaluation purpose as per terms and conditions declared upfront in the tender documents.

- (ix) If any bidder offers suo-moto discount after opening of un-priced bids but before opening of price bids, such reduction/discounts shall not be considered for evaluation. However, if the bidder happens to be the lowest evaluated bidder without considering such discount then the benefit of discount will be availed at the time of award of work. In the event as a result of techno-commercial discussions or pursuant to seeking clarifications/confirmations from bidders, while evaluating the un-priced part of the bid, any of the bidders submits a sealed envelope stating that it contains revised prices, such bidder(s) will be requested to withdraw the revised prices failing which the bid will not be considered for further evaluation.
